

CAPABILITY STATEMENT

Leamac Hydraulic Consultants – specialising in the following services to the building and construction industry:

- hydraulic and building services
- design and documentation

As a specialist company our strengths lay in the ability to provide clients with a focused and time efficient service. With staff qualified in their respective fields, we utilise the latest software technologies and understand that our clients' needs are foremost in our business model. It is our familiarity with the plumbing industry that ensures services are accurate, effective and relevant.

OUR COMMITMENT

Leamac Hydraulic Consultants commit to providing the level of service required by our clients to achieve their project goals, whether this is a simple residence, a multi-story building or a commercial development.

We trust the following document provides further in-sight into our company and that we will have the pleasure of working with you in the future.

Lea McLoughlan
Leamac Hydraulic Consultants

THE COMPANY

Lea McLoughlan is the principal of Leamac Hydraulic Consultants, consulting in building services design.

With over twenty five years of industry experience in both the public and private sectors, **Leamac hydraulic consultants** provides a range of professional services including:

- ✓ Sanitary plumbing and drainage design
- ✓ Hot and cold water reticulation
- ✓ Stormwater concepts
- ✓ Trade waste design
- ✓ Liaison and consultation with architects, builders, engineers and plumbers
- ✓ Fire services (hydrant, hose reels and sprinkler systems)
- ✓ Liaison with relevant authorities
- ✓ AUTOCAD drafting
- ✓ AUTOCAD documentation on AS Constructed

Leamac hydraulic consultants offers a fast and efficient service at highly competitive rates.

Should your project require a quick turnaround time for either a residential, commercial or industrial design, this can be achieved with confidence and efficiency.

We can provide you with a first-class service, competitive quoting and the comfort of knowing that **Leamac hydraulic consultants'** industry knowledge and expertise is second to none.

Call Lea to discuss your requirements.
